

*Welcome from all of the Education Team here at Rochester Cathedral.
New brasses, new photo-trails and new approaches through movement and dance are among the features making 2009/10 a great year so far despite nature's best attempts to restrict our activities! Do you remember snow, ice and volcanic ash? 500 visitors joined in our Family Fun Day in February, enjoying morris dancing and parachute games as well as our more familiar offer. 53 Cub Scouts came along on a soggy October evening and found that exploring "My Faith" is very active and great fun! Our website (address below) is proving a great success as teachers using it now make their booking enquiries in a very informed fashion. Have you seen our panoramic virtual tour yet? Ideal for your interactive white board.*

CALMING OF THE STORM

- our dance project for special schools

**"... a rich learning experience
... in an awe-inspiring building"**

... Is just one of the comments from Abbey Court School who joined us to pilot our Dance Project workshop – The Calming of the Storm.

What the students thought!

Pupils, staff and Cathedral volunteers enjoyed three sessions of music and movement in the Cathedral nave during the recent Autumn & Spring terms. Whilst the story was narrated we climbed into our boat, hoisted the sail, rocked on seas both calm and rough, got cold and scared; then finally, rejoiced as Jesus did his bit and calmed the storm.

A rollercoaster of fun, laughter and emotion as we learned together under the watchful eye of Pam (a professional dancer and one of our Education Development staff).

The final session took place in front of several other schools, some of whom were so impressed that they have now signed up to join the fun on future dates.

Following this pilot, the Calming of the Storm project can be booked from September 2010. To find out more please come along on Sept 15th to our **free** teachers' twilight briefing (see overleaf)— booking essential.
